Sheridan Metal Resources, LLC Metal Detail Seminars

3 Day, Euro inspired, double fold detail classes

Learn new sheet metal techniques and raise your knowledge of the tools and techniques required to perform double fold details.

Classes are structured to provide an introduction to double fold detailing for those new to Euro details, but in depth enough to challenge those who already have a working knowledge.

Class description

Focus is generally on roof and wall details;

- Eave Details
- Ridge and Hip Details
- Rake and End Wall Details
- Valley Details
- Roof Projections (Chimney, Pipe, etc)

Custom and on site trainings available for specific wall and roof systems

Day One

An introduction to basic tools and techniques and some classroom Q&A .

Set up and start the hands on portion of the training.

Day Two

Students will take the basic lessons from day one and begin to incorporate them into a hands on roof mock up.

Day Three

Roof mock ups are completed and reviewed. Final review of tools and techniques

Requirements

We provide all tools and equipment required to perform the training.

Students should have at least a general working knowledge of basic sheet metal tools and techniques.

Please contact us for information on advanced and custom classes.
