

## "PG" WOODSCREW

The "PG" Woodscrew, developed to offer a long-life solution over standard fasteners, is available in 20 colors to match our color palette.

The "PG" fastener is designed to attach metal sidewall panels and roofing on wood frame applications.

If your project calls for a fastener that is long-lasting and performs above the competition look no further.

### HIGHLIGHTS

- # 11 Hi-Lo Thread, resulting in better strip to set ratio
- 1/4" Hex washer head reduces the screw appearance on sidewall and roofing sheets
- EPDM bonded- 5mm galvanized washer offers itself for a superior seal
- Outlasts the competition by 750 to 1,000 hours of accelerated salt spray testing

COMPETITOR

# "PG" WOODSCREW

The conveniently packaged PG Woodscrew comes in a plastic tote with a carrying handle featuring a secure lid, which helps eliminate weather damage on the job site. Labeling on the plastic tote allows for easy identification of contents. In addition, the plastic tote is environmentally friendly by allowing the customer to reuse or recycle.
