

Sahara™ Evo

Sahara™ Evo is a reliable, breathable weather-resistive barrier engineered for contractors and homeowners who want solid protection without paying a premium.

Now enhanced with DRYZA™ Smart Nano Technology, Sahara™ Evo helps buildings breathe naturally—releasing interior moisture while blocking wind-driven rain and water intrusion. It promotes a healthier, drier structure without compromising on core performance.

Sahara™ Evo is built tough to handle the rough and tumble of busy job sites. Whether you're wrapping a cottage in California, a ranch in Alberta, or a multi-unit build in Texas, Evo is up to the task—resisting tears, handling extended UV exposure, and standing strong through unpredictable weather.

Sahara™ Evo delivers the protection your build needs—keeping the elements out while letting trapped moisture escape. Smart, simple, and built to last.

Features & Benefits

- DYZA™ Smart Nano Technology
- Durable construction to resist job site wear and tear
- Withstands long UV exposure for extended or delayed building projects for up to six months
- Surfactant resistant construction withstands incidental exposure to hazardous oils, cleaning fluids or power washers
- Limited Lifetime Warranty
- Custom dual-logo printing available

Test/Standard*

Typical Value

Tensile Strength ASTM D5034	MD 85 lbs CD 70 lbs
Tear Strength ASTM D4533	MD 20 lbs CD 18 lbs
Permeability (MVTR) ASTM E96B	16 Perms
Basis Weight (ASTM 5271)	70 gsm
Thickness	5.5 mil
Hydrohead	260 cm H2O
Water Holdout ASTM D779	Pass > 60 minutes
Air Leakage ASTM E2178	Pass
Flame & Smoke Spread ASTM E84	Class A
UV Exposure Rating	6 Months

Available Roll Sizes

Roll width (Ft.)	Roll length (Ft.)	Roll coverage (Sq. Ft.)
3	100	300
3	150	450
9	100	900
9	150	1350
10	100	1000
10	150	1500

*Test data is based on average taken over several production runs and should not be considered or interpreted as minimum or maximum values. Values are typical data and not limiting specifications. All values \pm 10 %. This product is manufactured in accordance with national standards which allow for non-critical variances in weights and measures.
